

# PIC32CX-BZ EA3.1

Install MPLAB X IDE v5.50, it is recommended users use the same version of MPLAB X IDE as mentioned in this package. Links to directly download the IDE are available below.

1. [Windows](#)
2. [Linux](#)
3. [Mac Os 10.x](#)

Upon the release of a new MPLAB X IDE version, users may not be able to find the specific version of IDE required for working with current EA3.1 release using the links mentioned above. In this scenario users should go to [legacy IDE downloads](#) and download the specific version of IDE.
