

Migration from EA3.1.x package to EA3.2 package

SDK Setup:

Below changes on the SDK setup to be followed while migrating from EA3.1.x to EA3.2 package. The steps are detailed in `\Documentation\PIC32CX-BZWBZ45x SDK Setup.pdf`

Key Change:

Starting from EA3.2 release all application examples will be based of [MPLAB Code Configurator](#) (Refer to “EA71C53A\Documentation\PIC32CX-BZWBZ45x SDK Setup.pdf” for details regarding MPLAB Code Configurator)

Note: There are **no new feature additions/bug fixes** in stacks (BLE/Zigbee) when migrating from EA3.1.x to EA3.2 Refer to `EA71C53A\package release notes.md` for details
